Wheelers®

Lubricants

ADDITIVES& CAR CARE

MADE IN GERMANY

WHEELERS

Wheeler lubricants are designed to meet all customers' requirements in terms of additives & car care. Our main goal is to provide you with an excellent & high quality products.

DIESEL SYSTEM CARE

Product specification:
Removes dirt and resin from the entire diesel system.Takes care of an ideal spray pattern and best efficiency the high pressure pump. Recommended for all diesel engines, soot particle filter, cut and turbo.

Application: Add to the fuel tank.

CLEANER AND CARE FOR OIL SYSTEM

Product specification:
Removes operational caused contamination in the entire oil and lubrication system. It neutralizes harmful engine acids, minimises emissions, optimizes the engine performance, reduce oil and fuel consumption and extend the lifetime of the catalytic converter.

Application: Add to the oil circulation system prior to oil change.

OCTANE BOOSTER

Product specification:
Octane booster raises the octane number of the fuel up to different points depending the quality of the fuel. Particularly recommended for fuel of lower quality. Prevents ''engine knocking'' and mechanical damage. Work against overheating of the engine. Suitable for all powered engine.

Application: Add the product to the diesel system with every filling up.

FUEL SYSTEM CLEANER & CARE

Product specification:
The entire fuel system will be cleaned for a perfect fuel nebulization at the nozzles and valves, binds condensed water and ensure a clean and powerful combustion, good performance, low fuel consumption and optimum values of exhaust gas. Recommended for all powered engines e.g-FSI,incl. Turbo engines and cut.

Application: Add to the fuel tank.

NANO ENGINE SUPER PROTECTION

Product specification:
The highly effective Nano antifriction protective film seals all the eternal engines and surfaces that seals, shaft seals and „O''-rings remain supple.
Highly effective ware protection – smoother and quitter engine running- improved oil flow during cold start – extend life of equipment – run dry properties.

DIESEL PARTICLE FILTER CLEANER

Product specification:
High power cleaner for diesel particle filter.
Regeneration help in diesel particle systemPermanent and completer filter cleaning during driving
The most economical way of particle filter cleaning & protection
Suitable in all diesel engines

Application: Add to the fuel tank.

GUARD FILL- DIESEL

Product specification:
Optimize the fuel lubrication, reduces carbon residues in valves and in the combustion chamber.
Improves the combustion and exhaust gas values.

Application: Add to the fuel tank.

GUARD FILL- PETROL

Product specification:
Optimize the fuel lubrication, reduces carbon residues in valves and in the combustion chamber.
Improves the combustion and exhaust gas values.

Application: Add to the fuel tank.

COCKPITSPRAY

Product specification:

Wheelers cockpitspray is a care agent for plastic sheathed dashboards and door panels.
Blunt surface become semi glossy. Deep invade into the plastic- material provides long- term constant effect.
Cares and protect without oiling. Cockpit care agent is antistatic and dust- rejecting.

SILICONESPRAY

Product specification:

Wheelers siliconespray- silicone- containing, water repellent lubricants, applicable on metal, rubber and plastic.
Forms a sliding and a protective film of silicone, which effects total hydrophobicity. Suitable for effective and perseverative against wetness and corrosion. Clears squeaking and preserves the resilience of plastic and rubber. Deeply effecting under surface and protects against excellent hazard.

RUST REMOVER WITH MOS2

Product specification:

Wheelers rust removers with MoS2 – is an effective agent for removal of rust and its new formation.
Excellent – anti- blocking agent for all moving parts.
Avoid screeching noises and keeps prevents corrosion and oxidation. Neutral against plastic, coating and metal.

BRAKE CLEANER

Product specification:

Effective and material- protective cleaning of brakes, carburators, clutches and transmission parts.
The cleaners improves adhesion factor at brakes and clutches.

Application: spray onto where you would like to clean, and let it drip off. Finish strong dirt with a brush or towel.

ENGINE CLEANER

Product specification:

Wheelers motor cleaner spray- cleaner to remove oil, fat and other contamination from engine blocks, machine and tools.
High cleaning power. Prevents oxidation of electric connections and corrosion of plastic and rubber.
Does not damage coated and chrome- plated surface.

RIM CLEANER

Product specification:
Alkaline cleaner with wheels gloss, emulsifying easily removes brake pad ware, dirt road, oils and greases from steel and all steel and aluminium rims.

VEHICLE CLEANER

Product specification:
Universal automotive cleaner for interior and exterior maintenance of rubber, plastic metal and fabric elements of the vehicle.

INSECT CLEANER

Product specification:
Removes effortless insect from glass and chrome.
